Consultation Transcript - FICTIONAL DEMO DOCUMENT (synthetic data, not a real patient)

[00:00:04] Clinician: Good morning Alex. Before you go home, let us walk through the plan together so you and Sam both know what happens next.

[00:00:16] Patient: Thank you. The part I am least sure about is getting to the appointment next month.

[00:00:25] Clinician: That is a good thing to raise. You must not drive yourself, so Sam should arrange transport to the clinic and back before the appointment day.

[00:00:38] Patient: Sam can do that. Is the appointment the one on the ninth?

[00:00:45] Clinician: Yes, Monday the ninth of November at half past ten, Outpatient Clinic, Building B, second floor. Please arrive fifteen minutes early to check in.

[00:00:59] Patient: I thought I only needed to bring my identification card.

[00:01:05] Clinician: Bring your current medication list and the discharge letter as well. The team needs all three to review how you are doing.

[00:01:18] Patient: Understood. And at home, how careful do I need to be?

[00:01:26] Clinician: Use the walking frame we gave you whenever you walk around the house, right up until the follow-up appointment.

[00:01:37] Patient: Even for short trips to the kitchen?

[00:01:41] Clinician: Yes, every time. It is the simplest way to avoid another fall while you are still unsteady.

[00:01:51] Patient: All right. Who do we call if something does not seem right?

[00:01:58] Clinician: The Outpatient Clinic team, on the number printed on your appointment card. Do not wait for the follow-up if you are worried.
